

SCHOOL & CHILDCARE

LEAD TESTING REQUIREMENTS

- By January 1, 2023, all licensed CCCs in California must have their cold water tested for lead.
- Applies to CCCs constructed before January 1, 2010.
- CCCs include preschools within a school district.
- All drinking or cooking water must be tested for lead. This means one sample from each faucet or drinking fountain. This includes sinks in restrooms.
- Water collected must be a first draw sample. This means we allow the water to sit in the pipes for 6-8 hours prior to collecting the sample.
- After the initial test, water must be tested every 5 years.
